WILPF AUSTRALIA
Women, Peace and Security 2020 Webinar Series

2020 will mark the
20th anniversary of UN Security Council Resolution (UNSCR) 1325,
25th anniversary of the Beijing Declaration and Platform for Action (BPfA),
5th anniversary of the UN Sustainable Development Goals (SDGs), and
75th anniversary of the United Nations (UN).

In a year of so many anniversaries, campaigns and consultations, and changing climate, bushfires and pandemics, it is critical that gender equality and feminist peace remain front and center of all discussions and actions in 2020 and beyond. This means ensuring that the diversity of women’s voices - in Australia, in our region and globally - as well as civil society organisations and individuals with interest in women, peace and security (WPS) - can be heard, and meaningfully integrated into debates, policy and practice.

WILPF Australia is holding the WPS 2020 Webinar Series over the next few months. Our goal is to have an open conversation about the:
- progress and gaps in the implementation of the WPS agenda;
- identify priorities for WPS commitments;
- strengthen meaningful engagement of civil society; and
- develop strategies to move on a holistic approach to the implementation of the WPS agenda.

This webinar series is co-sponsored by the ANU Gender Institute
