

COP21 HAS STARTED – WHERE TO FIND WILPF

November 30, 2015

Our WILPF delegation has landed in Paris. It is time for the [UN Conference on Climate Change \(COP21\)](#), which is taking place in Paris from today and until the 11 December.

The conference is a serious opportunity for countries to meet, discuss, and reach an international agreement about global warming. And it is an opportunity for climate activists to meet and raise our voices and concerns.

As usual our delegation consists of women from all over the globe. The delegation will host two workshops at the People’s Climate Summit and they also have an information booth at the Global Village of Alternatives.

The two workshops take place on 6 December and are titled “Nuclear Energy Doesn’t Save the Climate” and “Women Facing Climate Change”. The information booth is at the Global Village of Alternatives in AREA 10.

Please find all details on [our COP21 webpage](#).

ARE YOU A WILPFER OR SUPPORTING OUR COP21 EVENTS?

Then download the Facebook Cover Photo below and upload it on your Facebook!
