

Sydney, 1st of July

ChangeCamp is about grassroots social change, active citizenship and do-ocracy.

ChangeCamp is for people and organisations who want to make a difference in their community. It's about community driven social change, active citizenship and collaboration for social impact.

Anyone can host a session at ChangeCamp. It's an unconference with some creative facilitation and an opening session designed to inspire, build community and help you to maximise your impact. The rest of the day is up to you!

We hope to learn more about the people and organisations doing good things for our community, and we'll bring collaboration specialists, government agencies who want to help.

Our first ChangeCampAU was held in Sydney on the 1st July, 2017 and we couldn't be more pleased with the impact it had! Watch this space, and **Get in touch** if you want to get involved.

GIVE US FEEDBACK

## From sessions to success: making the day work for you

ChangeCamp is created by you for you, and we want to help you maximise the impact of your work by connecting you to others who will support it. So we'd like to hear how you are currently contributing to your community or how you want to contribute to it, and the kind of help you need. This includes your initiatives, ideas and the challenges you'd like to solve.

Why not host a session? We'd love to hear about:

- a challenge you see in your community and how you want others to help you address it
- something you are doing to help a neighbour, or people in your community
- lessons you have learned about partnering or running a social enterprise, not-for-profit organisation, or crowdfunding
- something your organisation is doing to deliver social and environmental outcomes and to support social enterprises in your community
- your social impact investment, community grant, community resilience, smart community or citizen science program and how people can get involved

We look forward to co-creating an amazing day with you all!
