SUSTAINING FEMINIST PEACE: PREVENTING CONFLICT THROUGH WOMEN'S MEANINGFUL PARTICIPATION AND GENDER JUSTICE

DATE: Monday 23 October

TIME: 3:00-5:00PM

LOCATION: Church Centre: 777 United Nations Plaza (10th Floor)

About the Event

In April 2016, the United Nations (UN) Security Council and General Assembly adopted Resolution 2282, affirming the importance of strengthening conflict prevention for sustaining peace.

This side event will provide a forum for women-led civil society to identify links between the Sustaining Peace and WPS Agendas and share recommendations on what a Sustaining Feminist Peace Agenda would look like.

The panellists and participants will share their views on what UN, member states, and donors can do to accelerate action that addresses prevention, demilitarisation, justice and peace.
