

ACTIONS AT TRUST WOMEN 2016

Actions embody what Trust Women is all about - finding real solutions to empower women and to fight slavery worldwide. It is our role to find the most innovative, entrepreneurial and high impact Actions to present to the global corporations, lawyers, policy makers, and pioneers in the field of women's rights and anti-slavery that come from across the world to attend Trust Women and create real change.

Actions are new, ambitious ideas that are present an innovative solution to social challenges. It is an opportunity to create fresh partnerships, test ground-breaking ideas and build the opportunities you need to turn your Action to impact.
